INTRODUCTION

PROJECT GOAL

create a fully rotating
environment for
games/animation

OUTCOME

Fully rotating environment
viewable in Sketchfab and
design process PDF

SCOPE

one room or setting (e.g., a
witch's room)

VISUAL REFERENCE

THEME

LEVEL OF REALISM

DESIGN PROCESS

Research & Moodboard Creation – gathered visual and thematic references.

Initial Sketches & Composition Planning – rough layout of room and key props.

Modeling Phase – detailed individual models (walls, furniture, props).

Texturing & Material Setup – added base colors and surface materials.

Lighting Setup – tested candlelight, window light, and environmental glow.

Final Rendering & Export to Sketchfab – adjusted composition, camera angle, and fixed import issues
